

Instructions for Activity 4

You are going to do two things in this activity. The first is to write a caption in a speech bubble. Your caption must include :

- a. Your favourite thing about the internet.
- b. What you do to stay safe when you use the internet.

To be successful in this activity you need to write a good caption and remember punctuation, connectives and good describing words!

When you have written an amazingly fantastic caption you can go on to create an amazingly fantastic character to go with it like the one below! Try to make your character as colourful and as original as possible. There are different hair styles and clothes for you to choose- just like when you make characters online.

Cut and stick then colour in!

You could even use them for a display in a classroom when you have finished!

My name is pizza_eater5 I love using the internet to find out about what is happening in exotic countries around the world. To stay safe online I always use passwords that are difficult to guess. Have fun and stay safe!
