TOP TIPS:
MUSIC

- Read the small print of an advert before ringing or texting for a ringtone.

- Check out ProMusic for the best and well known music download sites.

- Look at user reviews on file sharing networks before you download a song.

- If you use file sharing software make sure you set it up properly and don't share your personal files with everyone online!

- Do you pay for your ringtones? If not make sure you ask the person who does before you download a new one.
